

Ergo 555 Laser

The ultimate gaming laser mouse with OLED

Genius
Live with Ideas

Ergo 555 Laser from Genius is the **world's first OLED** gaming laser mouse that is high performance, user-friendly and unique. It features **Doppler** laser technology, making the **Ergo 555 Laser** more advanced than any other gaming mouse device. It has higher resolution and features an incredible 100x more surface coverage accuracy. This is ideal for gamers who want to adjust the X and Y axis dpi (from 400 to 3200 dpi) independently to get instant game reaction from this tailor made function. Also, the seven macro keys can be customized into five individual game profiles (G1-G5) which allows all gamers, regardless of their expertise, to **simplify multiple game actions** or movements under any gaming environment with game setting displays on the OLED panel for instant information.

The **Ergo 555 Laser** with the OLED display gives you an exciting game experience so you have instant access for all types of shooting, fighting, flying or racing games creating the ultimate gaming performer. **Ergo 555 Laser** is the the best choice available in the gaming mouse market. Contact your sales representative for further information.
